

libraries/synchronization/models/edit.h

```
graph TD; A[libraries/synchronization/models/edit.h] --> B[QObject]; A --> C[../../diff_match_patch/diff_match_patch.h];
```

The diagram illustrates the dependencies of the file `libraries/synchronization/models/edit.h`. It is represented as a box at the top with two arrows pointing downwards to two other boxes. The left arrow points to a box containing `QObject`, and the right arrow points to a box containing `../../diff_match_patch/diff_match_patch.h`.

QObject

../../diff_match_patch/diff_match_patch.h
